

Eight Reasons TASKMASTER® GRINDERS Are the World's Best...

If you're tired of grinder maintenance and thought all grinders were built about the same, here's important information .

There's one unit with design and construction features so superior, it makes it unquestionably the world's most reliable and effective grinder ---- the TASKMASTER!

1 Cutter Cartridge Technology

TASKMASTER Cutter Cartridges replace 12 cutter and spacer disks with one-piece monolithic elements. This results in markedly increased unit strength, reliability and a drastic reduction in individual cutter parts.

2
There's Less Parts so Maintenance is Far Easier.

3
Higher Strength Design

5
A New Era of Reliability

6
No Re-tightening Required Ever!

7
Superior Seal Technology

This is the industry's most durable seal design featuring: rugged tungsten carbide seal faces housed in hardened stainless steel glands plus an added primary labyrinth.

8
25% Stronger Bearings

4
Higher Precision Cutters They're sharper and higher precision because they're fully machined and ground.
